

In the Claims: (strikethrough parts deleted and underlined parts added)

Please delete Claims 8, 10 without prejudice.

1. (Currently Amended) A sleeping bag system, comprising:
a sleeping bag;
a ground cloth attached to said sleeping bag;
a canopy attached to said ground cloth, wherein said canopy includes a pair of side panels, a top panel and an end panel which are interconnected to each other and said ground cloth with a plurality of zipper fasteners, wherein said end panel has a two-way storage compartment;
and
support poles attachable to said canopy for supporting said canopy about said sleeping bag.
2. (Original) The sleeping bag system of Claim 1, wherein said ground cloth is made of water resistant material.
3. (Original) The sleeping bag system of Claim 1, wherein said ground cloth is made of waterproof material.
4. (Original) The sleeping bag system of Claim 1, wherein said sleeping bag is attached to said ground cloth with fasteners.
5. (Currently Amended) The sleeping bag system of Claim 1, wherein said canopy has a top, ~~a~~ an end and a pair of side panels.
6. (Currently Amended) The sleeping bag system of Claim 1, wherein said canopy is ~~has side, top and end panels~~ made from water resistant materials.
7. (Currently Amended) The sleeping bag system of Claim 1 ~~Claim 5~~, wherein said canopy is ~~has side, top and end panels~~ made from waterproof materials.

8. (Canceled)

9. (Currently Amended) The sleeping bag system of Claim 1 ~~Claim 8~~, wherein each of said pair of side panels has a window with a rain flap.

10. (Canceled)

11. (Currently Amended) The sleeping bag system of Claim 1 ~~Claim 8~~, wherein said top panel has a storage compartment affixed thereto to store tent stakes and said poles.

12. (Original) The sleeping bag system of Claim 1, wherein said support poles are collapsible, durable and lightweight.

13. (Original) The sleeping bag system of Claim 1, wherein said sleeping bag is attached to said ground cloth in such a fashion as to provide a slot for insertion of an air-mattress or pad.

14. (Original) The sleeping bag system of Claim 9, wherein said windows are manufactured with mesh.

15. (Original) The sleeping bag system of Claim 9, wherein a fastening strap is attached to said side panel to secure said window rain flap in a rolled up position.

16. (Original) The sleeping bag system of Claim 1, wherein fastening straps are attached to said ground cloth to secure the sleeping bag system into a rolled compact shape.

17. (Original) The sleeping bag system of Claim 1, wherein said canopy is made from camouflage patterned material.

Please add the following claims:

18. (New) A sleeping bag system, comprising:
- a sleeping bag;
 - a ground cloth attached to said sleeping bag;
 - a canopy attached to said ground cloth, wherein said canopy includes a pair of side panels, a top panel and an end panel;
 - a first support pole and a second support pole attached to said canopy for supporting said canopy about said sleeping bag, wherein said plurality of support poles are each comprised of an inverted U-shaped structure, wherein said first support pole is adjacent said end panel, wherein said second support pole is centrally positioned within said canopy, and wherein said first support pole is substantially taller than said second support pole;
 - at least one mid-point support pole sleeve attached to an inner surface of said canopy for receiving said second support pole;
 - a mesh side window positioned within one of said pair of side panels;
 - a storage compartment attached to an end of said canopy opposite of said end panel; and
 - a plurality of storage ties to secure said sleeping bag, said ground cloth and said canopy in a rolled-up position.
19. (New) The sleeping bag system of Claim 18, wherein said ground cloth is made of water resistant material.
20. (New) The sleeping bag system of Claim 18, a rain flap attached to one of said pair of side panels above said mesh side window.
21. (New) The sleeping bag system of Claim 18, wherein said top panel has a storage compartment affixed thereto to store tent stakes and said poles.
22. (New) The sleeping bag system of Claim 18, wherein said support poles are collapsible, durable and lightweight.
